## POLITICAL NOTICE.

FF Lighteenth Ward .- At a meening of the Eigh Room on Wednesday Evening, March 5, 1851, the followng Report and Resolutions were unanimously adopted

is each Ward Wang Committee, held at the Gommittee is each Ward Wang Committee, the following Report and Resolutions were unanimously adopted:

Report and Resolutions were unapointed. Committees to inequire into and report to this Committee, the facts and inequire into and say report to the Committee, the facts and inequire into and say report to the Committee, the two General Committees of the City and County of New York, were ceived their easts in those Committees; and wheth a the depth of the sears of each belongates in any way affects the ergenization of this Committee.

Your Committee, after a full investigation of the smatters with the committee. The committee was decided upon by that Committee.

They learn that on the 7th December last, the call of the General Committee was decided upon by that Committee, and sub-liced on the morning of the 18th, requesting the Whigs of its saveral Wards to assemble at their a sulpursers for the morning of the 18th, requesting the Whigs of its saveral Wards to assemble at their a sulpursers for the ensuing year, and that the elections should be held at their usual piaces, on the sucresing of the 18th of the Wards of the two General Committees; also, to effect their Ward of the two General Committees; also, to effect their Ward of the two General Committees and that the election should be held at their usual piaces, on the sucresing of the 250 December, between the hours of seven and tun of check, unless directed by the Ward Committees to be held in some other place, or during some other hours of that day.

In accordance with this santicipated call of the General Committee, we find that our Ward Committees are held in some other place, or during some other hours of that day.

In accordance with this anticipated call of the General Committee, which allowed the sucress of the Ward Committee, with their agents of the Ward Commi

chaimed to have polled in all about 200 votes, and yet this disorganizing faction was admitted to the two G-neral Committees, and the regularly elected delegates were rejected, without any proper reason having been given for a doing.

Your Committee, therefore, can see no reason why their rejection should in any way effect the organization of this Committee, each Committee oeing alone authorized to judge of the election of its members. The facts adduced, most fally show that this Committee was properly elected in a fact and the control of the work of the Ward. You would be refore the two with the rules and cascoms of the Whig party organization in this City and State, by a very large majority of the Whig Yoters of the Ward. You would be refore the opinion of your Committee, prove recent to the Whig party and its organization if you did not keep up the organization of this Ward Committee, espectably at the present time, when, by the proceedings of the two General Committees, we have good reason to fear that they are not actuated by sound Wing principles, but have trailors in their camp, whose object most plaidy is to undermine the very foundations of such organization in this City and State, and thus to overthrow the Whig party. It therefore not only becomes you to keep up your present organization, but if need be, to add in establishing a General Vigilance Committee throughout the City and State, to waich the movements of those who would destroy the Whig party, not by open and manly decunciation, but by load and vociferous clamorings for Union, while they are sappling its very life a blood by sowing discord in the raiks of its firm supporters.

There is no need of fear for the Union so long as the lawer of the country are upheld; they are a rong enough if properly admitshared, but have always boasted of their reverence for those laws, let them now stand by those principle, and we shall have nothing to fear. This loud cry for Union sechoed by those whose main effort has been to so we the assession of discord thr

sailoding the regularly elected delegates from a number of the Wards—Therefore, Resolved, That the Whige of the Eightsenik Ward, as represented in their Ward Committee, believing that they will not give a fair as press in of the views of the Whig party in the City and, fearing that many of their members are but tradfers in the Whig vane, fearing that many of their members are but tradfers in the Whig vane, fearing that he detroy the Whig party.

Resolved, That a large inspirity of the Whig voters of the Tenth Ward, represents in their Ward Committee, less themselves mostly else use of the resolves and Committee, and that we as their Committee, while accurate easy of the two General Committees; and that we as their Committee, while accurate eging the Whig organization, will submit to us detained from any man, or set of men, which may not be strictly in accordance with the release and cantons of the Whig party.

Resolved, That we have good cause to doubt the motives of the two General Committees, when they are destroying the right arm of the Whig Administration, and paralyzing the strength of that Union, by sowing discord among its supporters.

more, that firmness of purpose so essential to their support, which tearries, and should meet, the approbation of every lover of his toutry.

Resolved. That any laws of our country, made by constituted an thorty, are strictly briding upon every member of acciety, until respected by equally constituted authority.

Resolved. That this Committee is alone authorized to indee of the paper election of its members; and that we have been elected by a rage majority of the Whig voters of the ward as its Committee, for the year 1851, in accordance with all the rules and usages of the Whig party.

Resolved, That we should prove recreant to our duty if we did not keep up our organ ration, and in doing so we invite the counsel and cooperation, of all the Whigs of the Ward.

Resolved, That we will cheerfully join the Whigs of this city in appointing and maintening a General Whig Vigilance Colomities, for the purps so of accertaining and giving a fair expression of the sentiments of the Whig party.

Resolved, That we shall hereafter view with district the political principles of any man, who retains a seat in either of the two General Committees as they are at present constituted, a ter a full under standing of this given who cannot be a full of the Whigs in our State Legislature, to have acceled in concert in the election of a United States Seasord, and that we approve of the course pursued by Hon. E. D. MORGAN, Senator from the District Legislature, to have acceled in concert in the election of a United States Seasord, and that we approve of the course pursued by Hon. E. D. NILE NOTES OF A HOWADJI, 12mo. Paper, 75
cents; Musin. 574 cents.

"A new volume of Oriental travels, by a young NewYorker, describing a woyage on the Nile and the marvels of
Egypt, with a freshness and originality that give it all the
fascination of a romance. Speaking in the character of the
Howacji, which is the name given by the Egyptians to
foreign travelers the author describes a succession of rare
incidents, revealing the very heart of Egyptian life, and
transporting us into the milist of its dim, cloud-like scenes,
so as to impress us with the strongest sense of reality.

He leaves saide all eru its speculations, allowing the most
points of geography and history to sothe themselves, and
gives himself up to the dreamy fancies and romante musings which cluster round the imagination in the purple atmosphere of the Esat. His work is, in fact, a gorgeous
proses poem, inspired by his recollections of strange and
vivid experience, and clothed in the quaint, picturesque
costume which harmonizes with his glowing Oriental
visions. No previous traveler has been so richly imbued
with the peculiar spirit of the Esat. His language is pervasied with its luxurious charm. Bathed in the golden light
of the sunny clime, his words breathe a deliclous enchantment, and full the soul in softest revertes. The descriptive
portions of the book are often diversified with a veta of
profound and tender reflection, and with incidental critical
allusions to Art., which have the merit noth or acuteness and
originality."

LONDON LABOR AND THE LONDON POOR. By
Henry Mayhew, Esq. With illustrations 8vo, paper.—
Published in numbers.

This book will form a Cyclopedia of the Work and Want
of London—of the manifold operations—of the varied features of the multitude, divisible into three classes, namely,
I. Those that Will Work.—II. Those that Caunot Work.—

—III. Those that Will Work.—II. Those that Caunot Work.—

—III. Those that Will Not Work Of these there had
ithierto existed an ignorance as profound as at once culpable and peritous. It is to employ no other than the simple
speech of truth to say, that of the Daily Work, the Daily
Want, the Daily Vice, and, it must be added, the Daily
Heroism of the laborious, the outcast, and the enfering,
there had heretofore been no considered record; that of the
real condition of hundrods of thousands of Englishmen—

Englishmen themselves had no more assured knowledge
than of the social life of the people of Japan.

Mr. Mayhew's contributions to the Morning Chronicle—
so condensed and revised as to be made book worthy—
will form only a part of the above entitled volume; which,
with a large amount of wholly original matter, will, it is
believed, contain the fullest account hitbento published, of
any metropolitan people soever. Neither will the work be
confined to the claims of London la oralone; for whenover

this shall be found to infinence or to be infinenced by the
labor of the provinces, then such labor will receive a corresponding attention.

The work will contain numerous Illustrations of Real
Life, taken by Mr. Beard's improved method of Daguerreotype, rendered to the wood, and engraved by the beat
